

Timur Sabitov

Moscow, Russia

🔗 <https://github.com/sabitov-git>

✉️ sabitovtimur17@gmail.com

EDUCATION

Higher School of Economics

Bachelor's degree at Faculty Computing and Data Science

Moscow, Russia

2022-2026

TECHNICAL SKILLS

Programming Languages

- C++, Python (Numpy, Pandas, Matplotlib, sklearn), Pascal, SQL, 1C analytics

Software & Tools

- Git, PyCharm, Excel, Clion, RStudio

Courses

- Machine Learning by Stanford, Data Science in client and text analytics, Machine learning and applied statistics at Tinkoff

EXPERIENCE

Internship in "Tinkoff"

April 2022 - July 2022

- Data Analyst in B2B CRM team

"Yandex"

July 2022 - p.t.

- Middle Data Analyst Developer

PROJECTS

Image processing and compression

September 2021

- By using libraries: Pandas, NumPy, Matplotlib, Sklearn, Seaborn, cv2
- Increased contrast by using matrix convolution
- Compressed the image using by singular value decomposition
- Compressed and visualized the data using SVD
- <https://github.com/sabitov-git/-SVD>

ML

May 2021

- Used datasets:
- Built a model that predicts apartment prices using linear regression
- Used regularization to improve the accuracy of the model and stabilize it
- Complicated the model by adding new features, and thereby reducing the mean square error
- Drew graphs using matplotlib
- Example of work: <https://github.com/sabitov-git/-ML>

Dashboard

June, 2021

- Analyzed the data using pandas
- Visualized the data
- Made a convenient interface for viewing data
- Drew graphs using matplotlib
- <https://github.com/sabitov-git/dashboard-1c-about-covid>
